

Develop a Pandemic Plan at the Speed of Work

Situation

Your organization needs to put a pandemic contingency plan in place *today*—using the best available content that can be quickly customized, maintained and deployed. Or, your organization has a plan, but doesn't have an effective method for deploying or maintaining it.

Solution

Leverage pre-packaged comprehensive content that has been developed over the past two years by industry leaders. Methodically customize your plan with organization-specific knowledge. Use a tool to instantly deploy and maintain the plan on company websites.

Result

- Capture and deploy Pandemic planning processes and knowledge in days.
- Maintain operational continuity during a crisis
- Protect the livelihood and health of your workforce.
- Reduce the learning curve for institutionalizing knowledge by 80%.
- Reduce the cost of your plan rollout and maintenance by as much as 90%.

The Need for Pandemic Planning—Now

Organizations do not have years or even months to develop Pandemic contingency plans to address high rates of employee absenteeism, changes in patterns of commerce, and interruptions in supply and delivery schedules. The time is now to address the safety of employees and maintain business continuity during a crisis.

Pandemic Planning Services

Because of Pandemic threats over the last two years, EPSScentral offers unique methods and tools to *place best-practice Pandemic procedures and knowledge in your organization, immediately*, and in a format that is accessible, usable and quickly customizable.

Leverage expert knowledge developed by thought-leaders in the industry that addresses a multitude of response needs in the face of a Pandemic crisis, such as:

- Business continuity planning
- Legal and HR policy
- Medical directives
- Emergency management
- Crisis communication
- Infection control guidelines, and
- Proper distribution of medicines

Capture organization specific knowledge in days using a proven method, and embed situation-specific content in the business processes where it is readily accessible.

Instantly generate a knowledge base using smart and easy-to-use software that deploys an easy to maintain plan *immediately and in a format that is accessible on company websites*.

Rapid Response

EPSScentral will deliver best-practice Pandemic content, install the management tools and facilitate customization and deployment *at the speed of work*—which means that your customized Pandemic plan will be up, running, accessible and usable *in a matter of days*. We will connect your organization with the experts—real time—so that that your business continues to function through the crisis.
